

# **Archery**

## **Group lessons for bow hunters**

This lesson is designed to teach bow hunters basic archery skills and provide them with information on shot placement, reading their arrow to determine when to begin tracking their deer, and blood trailing.

The lesson will begin with archery skills including:

- Safety and archery equipment maintenance
- Foot position and proper bow grip
- Anchor point
- Aiming technique
- Use of a release aid
- Shot follow through
- Sighting in a bow

A discussion on shot placement and how to read your arrow after the shot will follow the session on archery skills

During the final segment of the lesson students will shoot at cardboard deer silhouettes from both the standing and sitting position to simulate actual hunting conditions

These lessons promise to be fun while increasing your chance for a successful hunting season

**Instructor**

**Craig Wagner**

**Certified Archery Instructor and experienced bow hunter**

**Hosted By**

**Smith Point Archery  
215 East Main Street  
Patchogue, NY 11772
